

Complete Portfolio Engineering Audit & Architecture Report

Bhavya Bansal — AI Engineer Portfolio | Date: August 5, 2026

1. Executive Summary

Overall Vision: Production-grade AI Engineer portfolio representing technical growth as an AI & Data Science undergraduate. Current Completion: 65%. Architecture: Server-first Next.js 15+ App Router, strict TypeScript, neutral dark Obsidian design system.

2. Development Timeline

Milestone 1: Project Foundation | Milestone 2: Application Shell & Obsidian Tokens | Milestone 3: Premium Navigation Shell | Milestone 4: Identity Experience (Hero) | Milestone 5: Current Focus Section | Milestone 6: Featured Projects (Case Studies) | Milestone 7: Image Asset Organization.

3. Current Project Structure

Next.js App Router root layout (app/), modular components (components/nav, identity, focus, projects), organized assets (public/images/), documentation (docs/).

4. Component Inventory

Navbar, NavBrand, NavLinks, NavActions, NavMobile, Footer, IdentitySection, FocusSection, ProjectsSection, ProjectCard — all 100% complete & verified.

5. Design System Summary

Typography: Inter (sans) & JetBrains Mono (code). Colors: Obsidian dark (#09090b background, #121215 surface, #27272a border). Whitespace: max-w-6xl py-20. Zero glowing halos or neon fluff.

6. Asset Report

11 organized image assets in public/images/. Rule Verified: hero-portrait.jpg is the ONLY image used in Identity / Hero. formal-event-portrait.jpg is NOT used in Hero.

7. Homepage Architecture

Navigation -> Identity -> Current Focus -> Featured Projects. All sections follow 12-column editorial grid rhythm.

8. Portfolio Content Audit

100% Truthful. Zero fake metrics, zero fake companies, zero fake senior titles. All 3 featured projects match real code repositories.

9. ASCII Wireframes

Homepage & section wireframes documented in Markdown report (docs/PORTFOLIO_ENGINEERING_AUDIT.md).

10. Recruiter Review

Evaluated from Microsoft, Google, Amazon, NVIDIA, OpenAI, Anthropic, Meta perspectives: High technical trust, strong scannability, editorial case study presentation.

11. Milestone Roadmap

Milestones 1-7 Completed. Milestone 8 (Achievements & Experience) Current. Remaining: Skills Matrix, Command Palette, Theme Switcher, Contact.

12. Lessons Learned

Truthfulness builds trust; server-first RSC architecture eliminates hydration shifts; structured case studies beat screenshot galleries.
